

Setting a target to raise Top25%(Q1) journal publication rate to 60%, on par with overseas benchmarks

Trends in Top25%(Q1) journal publication rate (CiteScore)

Source: SciVal (February 2, 2024)

Efforts to achieve target

- ① Actively hold faculty development seminars conducted by top journal editors and experienced contributors
- ② Adopted as an evaluation indicator of the internal budget allocation: Designated as a KPI common to all the departments presented by the President, and its results are reflected in the budget allocation
- ③ Strengthen HIAS: Joint research with prominent invited researchers, organizational support for the large research grant winners
